

## TECHNICAL DATA SHEET

### KRASO® Builder's Convenience Box - floor - SET

#### Application areas

Multi utility connection for supply lines such as e.g. water, electricity, telecommunication lines etc. for buildings without basement

#### Technical details

- + For the installation of gas, water, electricity and telecommunication lines
- + Stable installation device and visual check of the snap-on-socket
- + With roughened trowel flange for the integration of vapour barrier foils
- + Height-adjustable base plate and floor screed
- + Incl. Flexible Empty System **KRASO® FLS** (external 90 mm - internal 80 mm) available in various lengths
- + **With integrated installation kit:** ready-assembled components for the utility connection of electricity, water and telecommunication lines, including floor screed insert and height fixation
- + Including extension set
- + Incl. building period installation cover

#### Tests

- + **KRASO® 4 Seal** - exterior sealing of concrete: 10 bar! Overall system is gas- and water pressure tight up to 1 bar!
- + DVGW-certified according to VP 601
- + Radon-tight!
- + Resistant to methane gas!
- + DafStB waterproof concrete guideline: stress class 1 + 2, DIN 18533 W1.1 -E

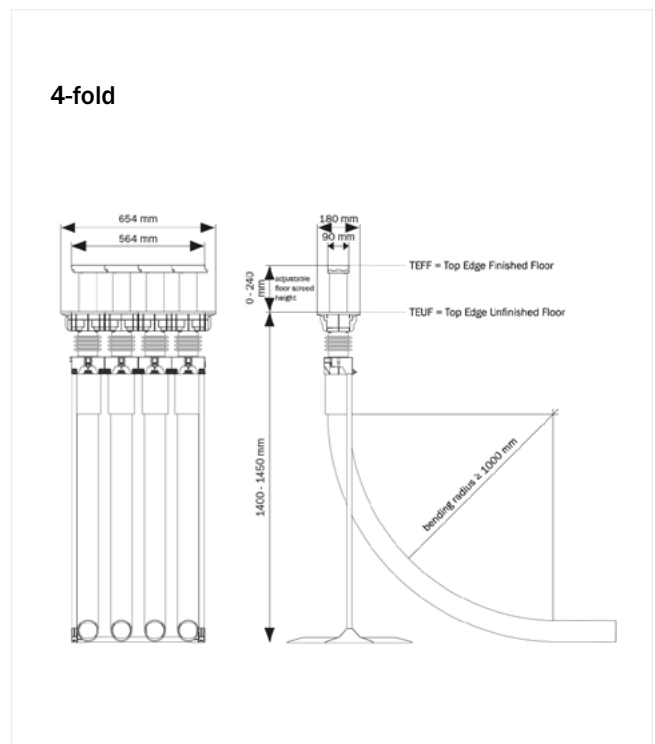

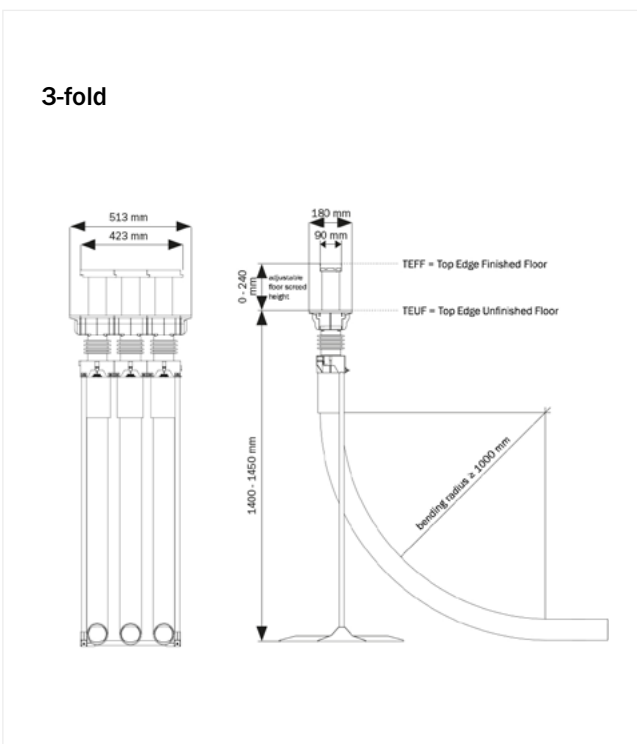

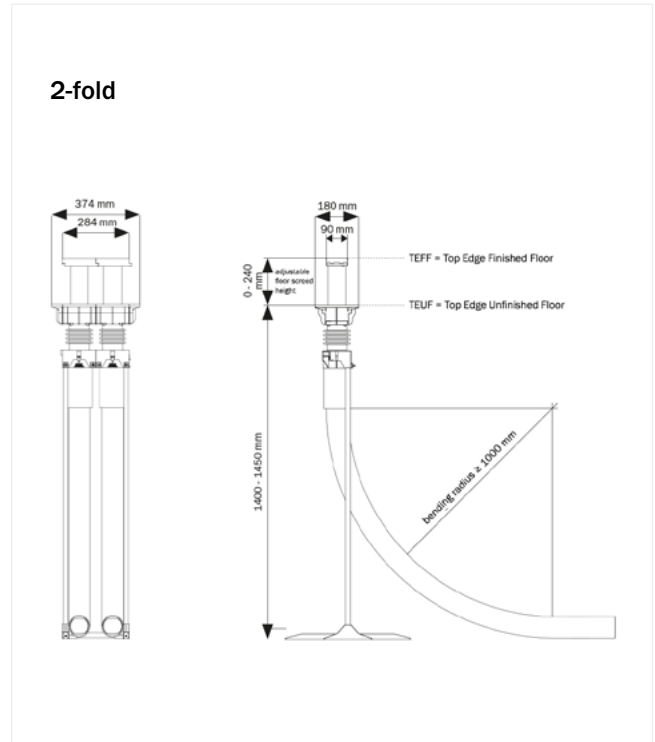

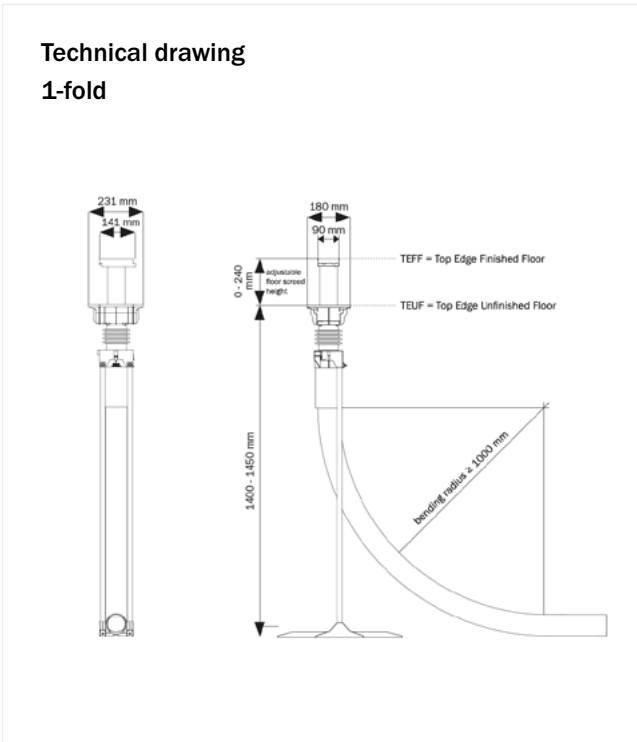

#### Material

Base plate element	PP
4 seal	TPE
Trowel flange	ABS
Empty pipe <b>KRASO® FLS</b>	PVC
